MIDDLE WEST HIT BY A COLD WAVE

Missouri and Kansas Experience Severe Drop in Temperature.

Kansas City, Mo., Jan. 18.—A general drop in temperature, accompanied by snow flurries throughout Missouri and Kansas marked the most severe storm of the winter today. Continued cold weather for several days with but little precipitation is the forecast of the federal weather bureau in Kansas City for the Missouri-Kansas district.

Kansas City and St. Joseph both reported 15 degrees above zero.

Below zero temperatures in Nebraska and Colorado were accompanied by a correspondingly larger amount of snow, Omaha, Neb., getting two inches of snow fall and Des Moines half an inch.

ADVERTISING SAVED FIRM, SAYS HEAD OF COMPANY

St. Louis, Mo., Jan. 17.—Carl F. G. Meyer, president of the Meyer Bros. Drug company, in an address to the Woman's Advertising club at a luncheon at Hotel Statler yesterday told of great benefits derived by his company through advertising, particularly in newspapers. He said that the institution had gone perilously near the rocks, and upon taking stock it was discovered that "prestige" was particularly its only asset after 50 years of honest development.

He decided to launch a \$100,000 advertising campaign. The company was exploited, not its product. With the aid of an advertising agency, "copy" was built around the history and the size of the company. Page advertisements appeared in 180 daily newspapers in different parts of the country. Continued prosperity, he said, has resulted.

Meyer has just returned from Europe. He said that it is his opinion that an advertising campaign could do much for the distressed business men in London, Paris, Berlin and other European cities. Much money is being spent, especially in Paris and London, he said, but business conditions are "nearing the worst," despite the fact that at night cafes and restaurants are so crowded that admission is at a premium.

How Many ???

How many steps do you waste by paying your bills with cash? How many hours? How many receipts—little slips of paper that disappear so easily—have you lost? How often have you delayed paying a bill until you had the time to "take the money over?" How often have you waited for change, lost money, or worried when carrying it?

The economy of a checking account is clear. There is nothing difficult about keeping one. No large deposit is required by this bank. Come in—let's talk about it.
